Fira Virtual 2023 – àmbit Enginyeria Industrial

Title: Natural Resources and Environment

The objective is to provide advanced education and training in the aspects pertaining to research into the utilization of **natural resources** and its impact on the **environment**.

It covers from the harvesting of raw materials to their disposal once they have become **waste**, and including all of the stages in their physicochemical and biological transformation.

Research lines:

- BIOGAP- Biological Treatment of Gaseous Pollutants and Odours Group
- CIRCUIT-Communication Circuits and Systems Research Group
- EXPLORATORI-EXPLORATORI Natural Resources
- GREMS-Sustainable Mining Research Group
- RIIS - Grup de Recerca en Recursos i Indústries Intel·ligents i Sostenibles
- SSR-UPC - Smart Sustainable Resources

Campus: Manresa

Coordinator: Dr. Toni Dorado
